

Cyprus Citizenship by Investment

We are pleased to announce the launch of the corporate website, www.onecitizen.com, catering exclusively for citizenship by investment and residency services worldwide.

The website belongs to one of our long established partner, OneWorld, and is designed to service the growing demand for global citizenship through acquisition of second passports and change of residency through investment programmes. Such programmes have had significant demand and interest during recent years as wealthy investors seek greater flexibility, better quality of life, safety for their families and assets and tax benefits.

The website provides information on citizenship by investment programmes, residency by investment, establishment of business, and citizenship by naturalisation. The requirements, benefits and investment options of each country is laid out.

Onecitizen.com will be updated regularly with news on each citizenship and residency programme, launches of new programmes, corporate milestones, events and useful publications. Visitors are encouraged to surf the website and sign up to receive direct emails.

The corporate citizenship and residency advisory desk, offers integrated services covering tax, immigration, international private law, real estate structuring and more.

PLEASE FEEL FREE TO CONTACT US WITH ANY QUESTIONS OR QUERIES.
