

Cryptocurrency, the new world

Our office, with HQ based in Switzerland, is ready to assist you in any of the following aspects related to the cryptocurrencies:

- Banking introduction to convert and cash your cryptocurrency into “fiat” currency
- KYC and due diligence aspects related to the main issues of the cryptocurrency such as source and proof of funds, track record of your blockchain transactions, miners and mining activity, master public key, private and public key, seed, hashing power, multi signature wallets
- ICO (Initial Coin Offer) for utility token and security token
- Depository Bank for ICO

Feel free to get in touch for any questions you may have!
